

PRO-SAN

A natural based liquid antimicrobial for meat and other produce.

Description

PRO-SAN is an effective, biodegradable organic acid based disinfectant that is effective against a wide range of micro-organisms such as Salmonella and E Coli. It is suitable for use on poultry and beef carcasses as well as vegetables and fruit.

Ingredients: Water, Lactic Acid, Citric Acid, Potassium Sorbate, Sodium Benzoate

Product Benefits

- Does not affect odour, colour or flavour of food
- Safe to use
- 100% Biodegradable
- Bactericidal (kills) and Bacteriostatic (inhibits growth)
- Non Toxic
- Non-irritating in solution
- Food grade ingredients
- Non-corrosive
- Effective at low and elevated temperatures

Directions for Use

FOR MEAT:

Apply on freshly slaughtered carcasses before chilling. At this stage, the micro-organisms is still on the meat surface and has not yet penetrated more deeply into the meat. Ensure that work surfaces are clean and disinfected.

For disinfecting carcasses, dilute 1 in 9 parts water.

Apply by spray or dip method. Do not rinse off.

Cautions

Store in a cool, dry place.

Do not mix with other chemical products.

Wear protective gear when working with the concentrated product.

In case of contact with eyes and skin wash with water for at least 10 minutes, seek medical attention.

Refer to Material Safety data sheet for more detailed safety instructions.
